

LIMITS THE FILE SIZE TO 5MB (5\* 1024 \* 1024 ) TO change the 5MB TO something else just replace the value to 7\* 1024\*1024 and ("file size exceeds 5MB") to ("file size exceeds 7MB")

The button upload id is : uploadButton13 but you can change it to anything

```
$w.onReady(function () {  
  $w("#uploadButton13").onCustomValidation((value, reject) => {  
    const maxFileSize = 5 * 1024 * 1024; // 5MB in bytes  
  
    let files = $w('#uploadButton13').value;  
    files.forEach((file) => {  
      console.log(file.size);  
  
      if (file.size > maxFileSize) {  
        reject("File size exceeds 5MB");  
      } else {  
        console.log('File size:', file.size);  
      }  
    });  
  });  
});
```
