This code uses a themed box and attaching a product to the box and a button that will close the page on click and onMouseOut to close window .(Single offer)

```
import wixWindow from 'wix-window';

$w.onReady(function () {
   setTimeout(function () {
      $w("#UpsellOne").expand();
   }, 4000);

   $w("#close").onClick(function () {
      $w("#UpsellOne").collapse();
   });

   $w("#UpsellOne").onMouseOut(function () {
      $w("#UpsellOne").collapse();
   });
});
```

The following Code uses, a multi state box connect to 2 different products and two different buttons to collapse Box 2 states to change offers before selecting.

```
$w.onReady(function () {
   // set initial state to FirstOffer
   $w("#UpsellOne").changeState("FirstOffer");

   // expand to SecondOffer state after 4 seconds
   setTimeout(() => {
      $w("#UpsellOne").expand();
      $w("#UpsellOne").changeState("SecondOffer");
   }, 3000);

   // change state every 5 seconds
   const states = ["FirstOffer", "SecondOffer"];
   let stateIndex = 0;
   setInterval(() => {
      stateIndex = (stateIndex + 1) % states.length;
      $w("#UpsellOne").changeState(states[stateIndex]);
   }, 5000);

   // onClick handler for closeBTNone button
   $w("#closeBTNone").onClick(() => {
      $w("#UpsellOne").collapse();
```

```
    });

    // onClick handler for closeBTNtwo button
    $w("#closeBTNtwo").onClick(() => {
        $w("#UpsellOne").collapse();
    });

    // onMouseOut handler for UpsellOne multi-state box
    $w("#UpsellOne").onMouseOut(() => {
        $w("#UpsellOne").collapse();
    });
});
```
