HOME PAGE OR ALL CONTACTS PAGE: (MAKE SURE YOU COPY ALL THE CODE SINCE IS IN 2 PAGES FOR THE FIRST PART)

```javascript
import wixData from "wix-data";
import { currentMember } from 'wix-members';
import wixLocation from 'wix-location';

let loginMember;
let lastFilterTitle;
let debounceTimer;

currentMember.getMember().then((member) => { loginMember = member });

$w.onReady(() => {
    $w("#contactRepeater").onItemReady(($w, dataItem, index) => {
        let linkToDynamicPage = dataItem["link-phonebook-title"];
        $w('#containerContact').onClick(() => {
            wixLocation.to(linkToDynamicPage);
        });
    });
});

export function searchInput_keyPress(event) {
    if (debounceTimer) {
        clearTimeout(debounceTimer);
        debounceTimer = undefined;
    }
    debounceTimer = setTimeout(() => {
        filter($w('#searchInput').value);
    }, 300);
}

function filter(title) {
    if (lastFilterTitle !== title) {
        let newFilter = wixData.filter();
        if (title) {
            newFilter = newFilter.eq("_owner", loginMember._id).and(
                wixData.filter().contains('title', title).or(
                    wixData.filter().contains('emailAddress', title).or(
                        wixData.filter().contains('phoneNumber', title)
                    )
                )
            )
        } else {
            newFilter = newFilter.eq("_owner", loginMember._id)
        }
```

```
        $w('#dataset1').setFilter(newFilter); // Ensure your dataset ID is updated if
it has changed
        lastFilterTitle = title;
    }
}
```

ADD CONTACT PAGE CODE:

```javascript
import { currentMember } from 'wix-members';

$w.onReady(function () {
    $w('#UploadImageTXT').hide()
})
