

CODE BASED ON ROLE (SCROLL TO THE BOTTOM TO SEE THE OTHER CODE)

```
import wixUsers from 'wix-users';
import {session} from 'wix-storage';

$w.onReady(function () {
  // Ensure elements are collapsed by default to handle async loading
  $w('#vipRole').collapse();
  $w('#allUsers').collapse();

  checkUserRole();

  // Listen for login event
  wixUsers.onLogin(() => {
    checkUserRole();
  });
});

function checkUserRole() {
  if (wixUsers.currentUser.loggedIn) {
    // Use session storage to reduce redundant role checks during the session
    const userRole = session.getItem('userRole');

    if (userRole === 'VIP') {
      // User has been previously identified as VIP in this session
      $w('#vipRole').expand();
      $w('#allUsers').collapse(); // Ensure non-VIP section is collapsed
    } else if (userRole) {
      // User role is known and not VIP
      $w('#allUsers').expand();
      $w('#vipRole').collapse(); // Ensure VIP section is collapsed
    } else {
      // First check in this session, fetch roles from server
      wixUsers.currentUser.getRoles()
        .then((roles) => {
          const isVIP = roles.some(role => role.name === 'VIP');
          if (isVIP) {
            session.setItem('userRole', 'VIP'); // Cache role in session
            $w('#vipRole').expand();
            $w('#allUsers').collapse(); // Ensure non-VIP section is collapsed
          } else {
            session.setItem('userRole', 'nonVIP'); // Cache role in session
            $w('#allUsers').expand();
            $w('#vipRole').collapse(); // Ensure VIP section is collapsed
          }
        })
        .catch(err => {
```

```

        console.error('Error fetching user roles:', err);
        // Default action if role check fails
        $w('#allUsers').expand();
        $w('#vipRole').collapse(); // Ensure VIP section is collapsed
    });
}
} else {
    // No user logged in
    $w('#allUsers').expand();
    $w('#vipRole').collapse(); // Ensure VIP section is collapsed
}
}
}

```

CODE BASED ON PRICING PLANS

```

import wixUsers from 'wix-users';

$w.onReady(() => {
    // Get the current user
    let user = wixUsers.currentUser;

    // Get the current user's pricing plans
    user.getPricingPlans()
        .then((plans) => {
            // Initially hide all sections
            $w('#TheClassicSaverSection').collapse();
            $w('#PeakSelectionSection').collapse();
            $w('#HorizonExpansionsSection').collapse();

            // Iterate through the plans to determine which section to expand
            plans.forEach((plan) => {
                switch(plan.name) {
                    case 'The Classic Saver':
                        $w('#TheClassicSaverSection').expand();
                        break;
                    case 'Peak Selection':
                        $w('#PeakSelectionSection').expand();
                        break;
                    case 'Horizon Expansions':
                        $w('#HorizonExpansionsSection').expand();
                        break;
                    // Add more cases as needed for other plans
                }
            });
        });
});
});
});

```
